

MANAGEMENT DEVELOPMENT INSTITUTE MURSHIDABAD

ONLINE MANAGEMENT DEVELOPMENT PROGRAMME

ON

BUSINESS INTELLIGENCE

05 & 06 September, 2024 11:00 AM to 1:00 PM & 2:30 PM to 4:30 PM

OBJECTIVES OF THE PROGRAM

The overall objective of business intelligence MDP is to allow business managers to make informed decisions. A company with a working BI strategy will have data that is accurate, complete, and organized. Business intelligence can be used to show historic patterns to help stakeholders gauge the health of their organization, alerting them to problems as well as potential improvements. This MDP focuses on making managers as best decision makers.

TARGET PARTICIPANTS

All levels of management and people from academia (participants some have prior knowledge of MS Office 365).

LEARNING OUTCOMES

- Understand and critically apply the concepts and methods of business analytics
- Identify, model and solve decision problems in different settings
- Interpret results/solutions and identify appropriate courses of action for a given managerial situation whether a problem or an opportunity
- Create viable solutions to decision making problems
